

Nursery learnt about England during World Hello Day 2024

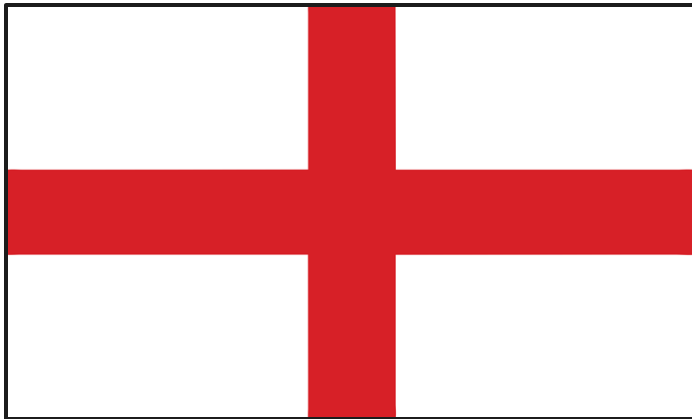

Where is England?

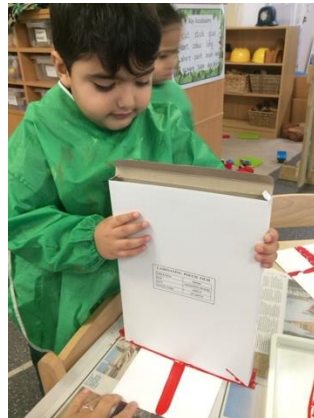

After finding England on maps and globes the children enjoyed using foam and paint to create their own messy world images.

The English flag

Children created their own flags by printing a cross using a thin box.

We talked about places and times when they had seen the English flag before.

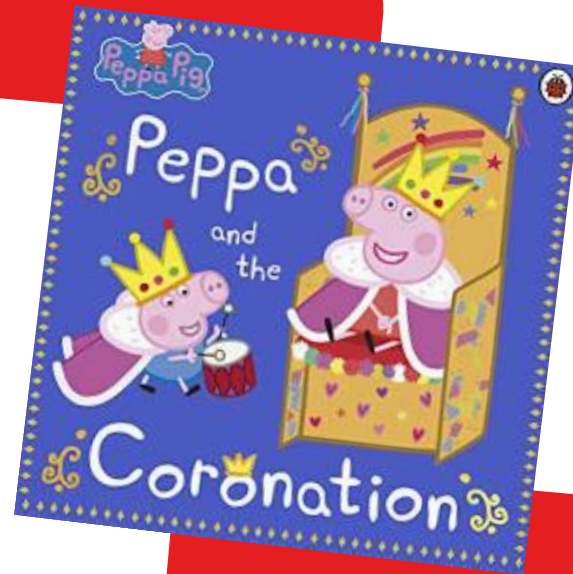

Children came to school in red and white to represent the English flag.

We practised saying
'hello' to each other!

We learnt about King Charles and what a Coronation is?

We made our own crowns!
